

## Training Event - Programme

### FOREST-IN 3<sup>rd</sup> Training Event

### “From theory to practice: Hands-on sustainable forest management”

11,12, 13, 14 and 15 March 2019 – 5 days

Hosted by Asociación Forestal de Galicia, Santiago de Compostela, Spain

Date	Module / Activity	Contents	Practical implementation	Duration (hours)	Learning Objectives	Trainers
<b>Day 1</b> - 11 March (afternoon) 16 h-16.45 h	Welcome Session	Project and Training Course Program Presentation  (Conducting a survey to measure the expectations of trainees)	Presentation	45 min	Trainees will introduce themselves and exchange experiences, and expectations about the course	Nelson Matos Aveiro University  Cristina Verde Asociación Forestal de Galicia
<b>Day 1</b> - 11 March (afternoon) 17 h-18 h	Module 1 (T)	From theory to practice: Forest(s) multiple use	Presentations:  Monte Caballar experience	1 h	Trainees Will be thinking critically about alternative/complementary forest products exploitation/valorisation, in the context of the multiple use of forest.	Francisco Javier Barreiro Carracedo
<b>Day 1</b> - 1 April (afternoon) 18-19 h	Module 1 (T)	From theory to practice: Forest(s) multiple use	Presentations:  The medicinal herbs in Galicia. Exploitation in the agroforestry systems	1 h	Trainees Will be thinking critically about alternative/complementary forest products exploitation/valorisation, in the context of the multiple use of forest.	Ruth M <sup>a</sup> Barros Camba Doctor of Agronomy

Date	Module / Activity	Contents	Practical implementation	Duration (hours)	Learning Objectives	Trainers
<b>Day 2</b> - 12 March (Morning) 9.30 h - 13.30 h	Module 2 (TP)	Management Simulation Exercise of a Forest Unit:  Implementation of a multifunctional model based on land maps, environmental and ecological indicators and risk assessment.	Exercise on a real case: Pico Sacro  Practical Exercise Activities – multifunctional model concept and management maps drawing  Making use of Forest-In's learning tools	4 h	The trainees will be able to critically assess the integration of planning tools, for the development of a Land-Forest management strategy, taking into account the concepts of multifunctionality.	Nelson Matos Carmo Tavares
<b>Day 2</b> - 12 March (afternoon) 16 h – 19 h	Module 2 (P)	Forest and Spatial Planning: an Integrated Perspective	Field visit to Pico Sacro- access by bus.	3 h	Linking conceptualization and on-site observation, the trainees will be able to critically assess the integration of planning tools, for the development of a Land-Forest management strategy taking into account the concepts of multifunctionality. In this context trainees will be able to correlate specific dimensions/needs to a comprehensive management strategy.	Francisco Dans del Valle Director of the Asociación Forestal de Galicia Or Braulio Molina Martínez

Date	Module / Activity	Contents	Practical implementation	Duration (hours)	Learning Objectives	Trainers
<b>Day 3</b> - 13 March (morning) 9 h – 13.00 h	Module 3 (P)	Field Visit to a public land concentration <ul style="list-style-type: none"> <li>Land concentration in Galicia</li> </ul>	Field trip to two areas of land consolidation in forest fields (access by bus) in Oroso and Curtis (A Coruña)	4 h	Using learning tools on site. Learning to critically think about the importance of creating unities of forest exploitation able to be managed.	Technicians of the Servicio de Infraestructuras Agrarias of the Regional Government of Galicia (Consellería do Medio Rural-Xunta de Galicia)
<b>Day 3</b> - 13 March (morning) 15.30 h-18 h  18 h-19.00 h	Module 3 (TP)	Forest and Spatial Planning: an Integrated Perspective <ul style="list-style-type: none"> <li>Natural Resources field trip</li> </ul> The Galiza forest and habitats	Field trip to the Natural Parque of Fragas do Eume  Trip to the Monastery of Caaveiro  Talk on Galician forests included in Red Natura 2000	3,5 h   0h45	Using learning tools on site. Learning to critically think about the importance of Biodiversity in the context of forest ecosystem management.  Preservation of the cultural heritage in the forest areas  To learn the different forests included in the protected nature reserves of the Red Natura of Galicia	Antonio Rigueiro Rodríguez, professor of Botany in the University of Santiago de Compostela President of the Advisory Council of the Natural Park Fragas do Eume

Date	Module / Activity	Contents	Practical implementation	Duration (hours)	Learning Objectives	Trainers
			abandonment and to put them at the disposal of any person needing land for the following uses: agricultural, cattle, forest, nature conservation and heritage conservation or any other use of social interest.			Desenvolvimento Rural da Xunta de Galicia
<b>Day 5</b> - 15 March (morning) 9.30 h-10.30 h  11 h-13.30 h	Closing and departures	Evaluation and closing session (Conducting a satisfaction survey and fulfilment of learners' objectives)  Guided visit to the San Domingos de Bovaval Park in Santiago de Compostela		1h  2,5 h	Trainees Will be making their final balance and saying their farewells.  Trainees will visit a park of the city of Santiago de Compostela	Nelson Matos University of Aveiro  Irene López Franco Environmental educator. Concello de Santiago de Compostela

### Course checklist:

- Fulfilled initial survey
- Signed attendance sheets – day 1  ; day 2 ; day 3 ; day 4 ; day 5
- Fulfilled final survey
- Course Certificate
- Training Package
